

## IN-HOUSE PRODUCTION AUTOMATIONS

自主研发生产自动化方案

1 AOI Optical Automatic Detection System-AOI 光学自动检测系统

2 Assembly Automation 组装自动化

In Hongrita, it is common to see lean practices and automation applied to everything we do to minimize cost and reduce waste, assure product quality and increase production safety. Regardless of whether we are looking into an in-mold assembly, module assembly or production system, one common element there is *automation*.

在鸿利达, 随处可见为降低成本和减少浪费、确保产品质量, 提高生产安全性而实行的精益制造与生产自动化。不管是模内组装、组装系统或是生产系统, 我们均注入自动化元素。

## COMPREHENSIVE MOLDING SOLUTIONS

综合注塑方案

1 3C & Smart product 电子消费品

2 Industrial 工业产品

3 Healthcare 健康用品

4 Medical 医疗产品

5 Automotive 汽车产品

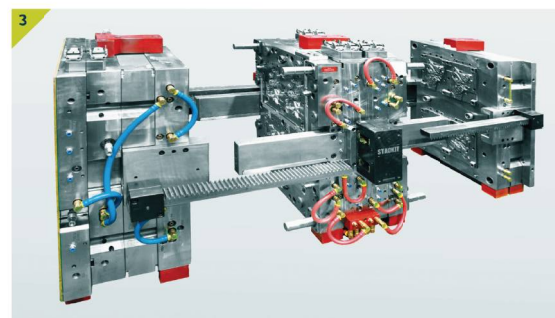

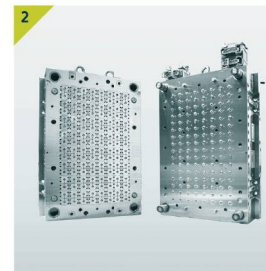

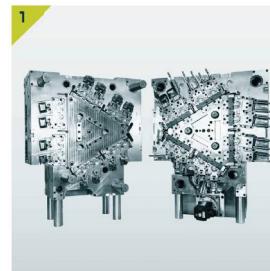

6 Mother & Baby Care 母婴产品

Noting the significant growth of the medical device, automotive and packaging component markets and the increasing demand for highly sophisticated plastic applications, we have been aggressively expanding our capabilities to meet the needs in these important market segments. Our dedicated manufacturing facilities include, but not limited to, dust-free clean-room, high-precision and modern injection molding technology supported by the most up-to-date equipments.

日益增长的医疗设备、汽车及包装零部件市场对塑胶产品提出越来越精细的要求。为满足这一重要市场的发展趋势, 我们大力引进并采用先进的设备设施, 包括无尘车间, 高精密, 现代化注塑技术与世界级水平的设备。

## PRECISION TOOLING SOLUTIONS

精密模具方案

1 3-component precision mold 三物料模具

2 High cavitation mold (128cavities) 多型腔精密模具

3 Stack mold 叠层模

We build multi-component, liquid silicone rubber (LSR), stack molds, thin / thick wall molds, high cavitation high performance high precision molds and metal insert molds. They all comply with international standards. We have the capability to build in-house multi-component rotary platen systems, LSR cold runner systems, and quick prototype molds for engineering evaluation. In addition, we offer world-class 1-stage injection stretch-blow mold (ISBM) tooling solution.

我们提供多物料、液体硅橡胶、叠层模、薄/厚壁模、高效能多腔精密模及金属嵌件模具, 规格均符合国际标准。并自主研发有多物料转盘控制系统、液体硅橡胶 (LSR) 冷流道系统、适合工程研究用的铝制快速模。除此之外, 还提供世界级一步法注拉吹 (ISBM) 解决方案。

### ABOUT US

Since the foundation of Hongrita in Hong Kong in 1988 and its subsequent expansion into China, the company keeps pursuing technological excellence to manufacture precision plastic components and products. We have world-class solutions on high performance tooling, unique technology know-how on multi-component and liquid silicone rubber (LSR) tooling and molding, as well as enjoying a close partnership with 1-stage injection stretch-blow molding (ISBM) tooling provider. This has enabled Hongrita to provide total plastic manufacturing solution for a wide range of products and specialty industries covering medical, healthcare, consumer, industrial, application, automotive and mother & baby care.

To ensure the provision of sustainable and quality services to its customers, Hongrita has continuously strived to improve its standards on business management and product quality management. The implementation of the SAP Enterprise Resource Planning (ERP), Manufacturing Execution System (MES) and the accreditation of different ISO certificates are evidences of its dedication and commitment to our customers.

自1988年在香港成立，继而进入内地市场以来，鸿利达始终追求以精湛的技术为客户提供精密塑胶部件及产品。凭借世界级高效能注塑方案、独特的专业液体硅橡胶模具制作及注塑技术、与一步法注拉吹 (ISBM) 技术支持伙伴的密切合作，鸿利达建立了多样化的客户群，为医疗、个人护理、消费品、工业应用、汽车及母婴等行业提供全方位塑胶产品解决方案。

为确保为客户提供稳定优质的服务，鸿利达不断提升其业务管理水平及产品质量管理系统，已实施和取得的SAP企业资源规划 (ERP)、制造执行系统 (MES)、ISO 系列资质认证，都是为实现对客户承诺的最佳体现。

### OUR VISION

Create better value together  
一起创造更佳价值

### OUR MISSION

Make the products better by innovative and professional mold and plastic solutions  
以创新及专业的模型方案成就更佳的产品

## OUR SERVICE

total solution from development, tooling, molding to manufacturing of plastic orientated parts and products  
我们的服务 - 全方位塑胶制品解决方案: 产品开发、精密模具制作、注塑生产、二次加工与组装。

## OUR TECHNOLOGY

precision multi-component, LSR,  
high performance tooling and molding  
我们的技术 - 多物料、液体硅橡胶、  
高效能精密模具制作与注塑。

## OUR APPROACH

lean practices and automation to minimize cost  
and assure product quality  
我们的宗旨 - 以精益制造及自动化  
生产降低成本、确保质量。
